Mrs. Shearer's case is a fair example of the average cure effected by the use of "Favorite Prescription" both in the completeness and quickness of the cure. Of course, in complicated and chronic cases the cure may be slower but it is none the less sure if the medicine is none the less sure if the medicine is faithfully used as directed. The records show that ninety-eight women in every hundred who have given "Pavorite Prescription" a fair and faithful trial have her little ones. It is so good to be quiet for a little she thinks.
